

Summer project

The Royal Borough of Greenwich has a rich history and over the years many influential people such as politicians, scientists, musicians and actors have made their home here. The local area has many famous landmarks such as The Royal Observatory, Woolwich Arsenal and Eltham Palace, it also has many great parks and outdoor community spaces. At Leigh Academy Blackheath we want to celebrate the cultural heritage and diversity of our borough by using it, or those who live or have lived here, as the inspiration to name each one of our three colleges.

Which theme would you use to name the three colleges? Would you name them after influential people, local landmarks or places? If you could choose the name of the three colleges what would they be and why? Create a presentation to share with the LAB community in September that explains which theme you have chosen and what name you would give to each college. You will need to convince the whole LAB community that your choices are the best. **Good Luck!**

What do you need to do?

Document your research and present it in either a notebook, sketchbook or folder.

Produce a presentation that explains which theme you have chosen and the name you would give to each college. You could support your presentation by using:

- Drawings
- Photographs
- Video
- Audio recordings

Final work should be no bigger than A2.
